APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.00166 cubic feet per second, or sufficient to water 50 head of cattle.

Work must be prosecuted with reasonable diligence and be completed on or before September 12, 1991Proof of completion of work shall be filed on or before October 12, 1991Application of water to beneficial use shall be made on or before September 12, 1993Proof of the application of water to beneficial use shall be filed on or before October 12, 1993Map in support of proof of beneficial use shall be filed on or before N/ACompletion of work filed NOV 2 1989Proof of beneficial use filed JUL 5, 1991
